Dear Perle Construction:

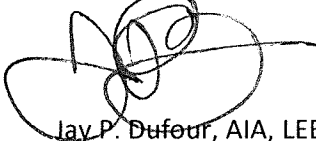

As our examination reveals no foundation requirements, this office has no objection to work proceeding on the interior.

It is mandatory that a copy of the plans be kept at the Building site until the permit is issued.

It is understood that this permission is applicable to interior framing and MEP rough in work only.

If acceptance of this permission to proceed it is agreed that you hold the City harmless for any consequences resulting from detailed review on final submission whereby the Code requires different material, methods or construction or other requirements that affect foundation design.

Yours very truly,

Jay P. Dufour, AIA, LEED AP  
Chief Plan Examiner
