Dear Miles Landrem, John Mire and Aaron Sanchez:

Plans and specifications for the above named project have been reviewed and found to be in substantial conformity with applicable provisions of the State Sanitary Code. This plan approval refers to sanitary features of the design of the floor plan only, and is not to be taken as an approval of structural details or plumbing specifications, except insofar as they may affect public health.

Effective January 1, 2016, due to Legislative Act 836 of 2014, the Department of Health and Hospitals no longer has authority over sizing of grease traps or interceptors, or restroom fixture counts. This responsibility now lies with the local Chief Building Official, CBO, for your geographic location. Contact your local town, city or parish office for plumbing information, review, and permitting. Information for the CBO is available at 225-922-0817 or at this site: <http://lsuccc.dps.louisiana.gov/index.html>.

If a design error escapes our detection, that oversight shall not relieve you of the responsibility of complete compliance with the requirements of the State Sanitary Code.

This plan approval is automatically cancelled if construction of the project has not been started within two (2) years after the date of this letter.

If you have, any questions contact Ms. Terrijon Hughes, RS. at (504) 568-7973.

Sincerely,

Ms. Terrijon Hughes R.S.
