Hi Warren,

Thank you for your response and the feedback.

In the meanwhile, I acknowledge the assurance that glazing protection, attic space venting and roof construction work done will be in compliance with the proper codes.

In the meanwhile, please give me a call when you can because I did have a couple of questions as per the letter that was sent. I can be reached at 404.407.0784.

Best regards,
Darilyn Stinson

Darilyn,

You still have several outstanding review comments. See the attached letter summary, and respond at your convenience. As you review, please note:

1. My comments re: glazing protection, attic space venting and roof construction do not necessarily require revised plans. A simple return-email acknowledgment and assurance that your construction will comply, will be adequate. I will file your email along with your other supporting docs, and close those comments.)
2. All contracts must include BOTH Owner and Contractor signatures, printed names, titles and date. Yours only has the Contractor's signature. Please revise and resubmit.

Any other questions or more info needed, do not hesitate to contact me.

Regards,
W.

Hi Warren,

Hope you are doing well today!

I wanted to reach out because we applied for the non-structural permit a couple of months ago. As per notes regarding this file, we went through the process of getting the proper approvals. I have uploaded all the documents that you requested. We hope that we get approved. Also, I did want to know when we would need to pay the fee? Also, there is a correction I did need to make on the application. How can I go about making that update to the application form?

Thank you and I look forward to your response.

Best,
Darilyn
