Thank you, yes it will be exactly the same.

Thank you for sending these to me - please note in a full control historic district, all work that is visible from the public right of way, has to be approved by our office. Our inspector took photos of CMU blocks being installed; I'm assuming the profile will remain the same? If that is the case, I should be able to issue our Certificate as soon as we get the contractor information.

Dear Ms Tyler:

Thank you for your quick response. I am sending you a couple of photos of the wall that we are trying to get repaired.

It was damaged during Ida, I believe a large branch fell on it. It is hard to tell from the photos but this is a wall that is a few feet from the house. The top of it is a planter and behind it is a front porch area. I am waiting to get the contractors information and will forward that as soon as I have it. I did not think a permit was required to repair the stucco but I may be incorrect. It is not a support wall for the house. We are simply repairing, nothing is being changed.

Thank you

Laura

7800 St Charles Ave. is located in a Local Historic District which is under the jurisdiction of the HDLC. I am working on the HDLC review of this project; please let me know when you have uploaded a signed contract or some other document showing the full scope of proposed work. I reiterate, please email me when these documents have been uploaded, as our internal system will not alert me. Alternately, you can email this documentation to me, and I can upload it for you.

Thank you -
