Thank you for the quick response. No, there were no changes to the contract or contractor.

Good morning

Your approved permit has been placed in pending status for review of the revised plans. I have added the additional fee for review after approval of the initial plans. Were there any revisions to the contract or contractor? If so, please provide the updated documents.

The new plans are in review. If there are any questions, you will be emailed through One Stop. Please monitor your email.

Hello,

I am not sure where this message needs to go, so I am casting a wide net since I have not had a response from my previous email on August 1, 2022. I am sending the plans for my new construction at 1233 St. Bernard Avenue, which is to be used for an STR. I need someone to review and give the approval to proceed with construction. I would

appreciate approval or required revisions asap. I basically need someone at One Stop to give the go-ahead for us to begin construction. See attached plans-

This project is an opportunity to bring additional revenue to the city of New Orleans; thank you.

Warm Regards,

David Butler
