Mr. Jones,

I'm contacting regarding Permit #22-19115-RNVS (RNVS-MIXD) --- since we've submitted this application for permit our owner has requested to remove a large portion of the project scope. The revised scope of work is limited to repairs at the second-floor balcony and renovations in the exterior alley. They've requested that all other portions of the interior renovations be removed from the project. Enclosed is a redlined set illustrating the revised scope.

Can this permit be amended to exclude the previously submitted items or do I need to submit a new permit from scratch?  
Feel free to call if needed --- (504) 715-2709

Thanks,
