

## Clean Juice Operations Description

Clean Juice offers food for pickup and delivery. Our guests come into the store and may place an order at the register or at a kiosk (if available at their location) and wait while we make their order from scratch. Once the order has been completed our guests can pick up their food at the end of the counter and take it to go. All of our food is served in single-use disposable containers for their convenience. We only serve ready to eat items at our stores (meaning that there is no cooking involved in our stores).

Clean Juice only serves organic made to order items and does not carry alcohol on our menus.
