Good morning,

541 Julia St. is located in a Local Historic District which is under the jurisdiction of the HDLC. I am working on the HDLC review of this project; can you please clarify which openings you're proposing to install shutters on (you can mark up a photo if you don't have elevation drawings of the building) - are you proposing board and batten shutters or paneled shutters? Both are currently present on the building. If you have shop drawings from the millshop those would be helpful.

Thank you -
