Good afternoon,

I have received your application for work at the above referenced address. Unfortunately, the full scope of exterior work is not clear based on the submitted documents. Please clarify the intended scope of work specifically noted as "adjust 18 joists to raise 2<sup>nd</sup> floor flooring system." Please confirm that the joists on the second floor (and not first and third floors) is the only area requiring replacement.

**This is accurate, 18 second floor joist only will be replaced.**

Please confirm if any of the building's foundation piers will require repair or replacement.

**None, will need repair or replacement**

And finally, please clarify all proposed scope of work which will be visible or require changes at the exterior of the building.

**No exterior change of building**

Please be sure responses and any additional information is emailed directly to me so I can continue the HDLC review.

Thanks,

**Dennis Murphy**
