

BUILD THE WAY YOU WANT...

Leave the rest to DaVinci.

BUILD THE WAY YOU WANT... WE FIT YOUR STYLE

From the mountains to the coasts...

*Wherever you build, whatever you build,
a DaVinci roof lives up to your vision of beauty
and stands up to the challenges of your weather.*

DaVinci has been the leader in composite slate and shake roofing for nearly two decades. Our commitment to creating durable, beautiful roofing tiles is unparalleled. You won't find a more realistic or better-performing roofing product anywhere.

DaVinci's distinctive good looks and long-lasting performance characteristics make it the perfect choice for any steep slope roof project, including categories like clubhouses, retail, hospitality, healthcare, government, historical, education, religious and more.

With DaVinci, you can retain all the character your project was intended to have without worrying about design restraints or color compromises. Whether you're replacing an existing roof or looking for the crowning touch on a new construction project... just leave it to DaVinci.

A PERFECT FIT

for every segment you serve

**GAILLARDIA COUNTRY CLUB
OKLAHOMA CITY, OKLAHOMA**

Gaillardia Country Club is an elegant 55,000 sq ft. French Normandy style design located in the heart of twister country. The new owners decided on single-width slate tiles in Slate Black to complement the structure's style while withstanding severe weather.

DENVER WEST OFFICE PARK
DENVER, COLORADO

Real cedar roofs could not withstand the hail damage caused on 19 buildings of the Denver West Office Park in Colorado. Seeking a more durable roof, owners turned to DaVinci. More than 550,000 sq ft. of impact-resistant Bellaforté Shake composite tiles were used in the massive re-roofing project.

VS. NATURAL SHAKE

Unfortunately, the long-hailed performance attributes of cedar shake have disappeared along with old-growth trees. Rotting, cracking and curling are inevitable. DaVinci composite tiles give you the look you love with superior durability for decades.

DaVinci roofing tiles are proudly manufactured in Lenexa, Kansas.

**WHAT'S BEHIND
THE BEAUTY IS**
Genius

Mother Nature's fury is universal, making DaVinci slate tiles and cedar shake a solid choice year-round for any region of the country. Our unique composite construction outperforms both natural slate and cedar shake with a Class A Fire Rating, Class 4 Impact Rating and a 110 mph Wind Rating.

But the real genius of a DaVinci roof is in its ability to provide lasting beauty and a constant source of pride. Our color control and consistency during the manufacturing process ensures that our tiles are state-of-the-art. With enhanced performance, the end product endures beautifully in any climate.

Every region of North America presents challenges to the exterior of your project, and while some buildings may look better with slate or cedar... others demand it. In whatever location, weather conditions or style requirements, a DaVinci roof is the smart solution that comes without compromise or comparison.

Due to DaVinci's performance features, many insurance companies now offer reduced rates when switching to Class A Fire and/or Class 4 Impact rated products, especially in high wind-, fire- or hail-prone areas.

A ROOF DOESN'T GET
ANY BETTER THAN

DaVinci

When it comes to roofing materials, you've got plenty of options...and none better than a DaVinci composite roof. DaVinci composite roofing tiles blend state-of-the-art materials with an artist's touch. You won't find a better looking or better performing roof at any price.

ST. JOHN'S CATHEDRAL

Denver, Colorado

The leadership team at Saint John's Cathedral in Denver knew that the hail-damaged slate roof on their historic structure had to be replaced. They wanted the same look and feel as natural slate, but with fewer maintenance worries. **Approved by the Denver Landmark Preservation Commission**, their solution was to install impact-resistant DaVinci Single-Width Slate on the church's cathedral and two separate halls.

MADE TO WEATHER
Every Storm

MUSTANG ISLAND
CONFERENCE CENTER

Mustang Island, Texas

When Category 4 Hurricane Harvey barreled into Texas on August 25, 2017, landfall was just six miles from the Mustang Island Conference Center. Nearby buildings were mostly destroyed, but with DaVinci Single-Width Slate tiles in mansard-style and rooftop applications, they were able to **withstand the 120 to 140 mph winds without a scratch.**

DAKOTA AT ARROWHEAD

Beaver Creek, Colorado

In many areas of Colorado, **real wood roof shingles are no longer allowed due to fire risk and difficulty securing insurance.** When the Dakota at Arrowhead community faced this challenge, they switched to fire-resistant Bellaforté Shake tiles. Now homeowners for the 30 townhomes rest easier knowing their roofs are fire-resistant.

**HAND-SPLIT SIDING &
SELECT SHAKE ROOFING**

HAND-SPLIT SHAKE SIDING
BLACK OAK

DAVINCI HAND-SPLIT SHAKE SIDING

Expanding the legacy of beauty...

The anticipation is over—DaVinci now offers Hand-Split Siding, which gives you the look you love with superior durability for a lifetime. The tile molds are created from authentic cedar shake, giving any home the beauty of real cedar without ongoing maintenance. The attributes of real wood disappear over time, whereas our siding tiles are resistant to mold, algae, fire, pests, impact, and salt air.

By bringing 20 years of proven performance to a new exterior application, we’ve engineered siding that stands up to whatever your home may endure. Unlike real cedar, Hand-Split Shake Siding does not curl, cup, or split; it is easy to install and never requires painting. The color you pick is the color you keep because the tiles are made of virgin resins fortified with state-of-the-art UV stabilizers. When you demand the beauty of authentic wood but require effortless upkeep, DaVinci is on your side.

Inquire with your sales representative to learn more.

*Thick construction,
deep grooves and
realistic grain
patterns combine to
create dramatic
shadows and
visual richness.*

SELECT SHAKE ROOFING

Making a great thing greater

Along with the DaVinci reputation of durability and effortless upkeep, our Select Shake tiles imitate authentic cedar shake better than any other product on the market. The molds are created from real wood, giving your home the beauty of authentic cedar shake without the ongoing maintenance and upkeep. If your vision involves the look of traditional shake, these tiles are perfect for your project.

Our design doesn’t stop at beauty—our Select Shake allows for faster installation and will withstand whatever Mother Nature brings to the exterior of your home. When you’re looking for the beauty of real cedar with the lasting artistry of DaVinci, our Select Shake has your home covered.

Learn more about Select Shake on page 27.

Sustainable style THE WORLD CAN LOOK UP TO

*Using DaVinci roof tiles ensures enduring **beauty and low life-cycle costs...**
and that's just part of the story.*

The choice to use our tiles over natural cedar shake results in a roof that saves trees and resists fire, hail and wind damage. The quarrying process of natural slate tiles consumes large amounts of fuel and is especially destructive to local ecosystems. Our tiles reduce waste with less breakage, keeping products out of landfills.

A DaVinci roof represents sustainability for the building as well as for the environment.

Perhaps the most sustainable aspect of DaVinci tiles is their enduring beauty and low life-cycle costs. Roofs that need frequent maintenance and replacement after as little as 15 years consume energy every step of the way, whereas

DaVinci tiles have a 50-year warranty. Our roofing systems assure that our products will stand the test of time... providing beauty and durability for decades.

Visual VERSATILITY

DaVinci offers the beauty of natural slate and cedar shake in three different tile options, giving you the ability to **meet your aesthetic vision as well as respect your budget.**

MULTI-WIDTH

Our most authentic-looking and versatile option, DaVinci's Multi-Width tiles set the high mark for luxury. Laying tiles of multiple widths in a straight or staggered pattern creates the most natural, non-repeating appearance possible.

MULTI-WIDTH SLATE Page 14
MULTI-WIDTH SHAKE..... Page 24

SELECT SHAKE

Created from real cedar profiles, Select Shake gives your home the beauty of authentic wood while remaining maintenance-free. The versatile design provides a worry-free, best-in-class roof that speeds up installation with the look of multi-width shake.

SELECT SHAKE Page 26

SINGLE-WIDTH

Single-width tiles add a budget-friendly touch of tradition to your home in either a straight or staggered pattern. The uniform tile size and impact-resistant composite construction work to reduce waste and speed up installation.

SINGLE-WIDTH SLATE Page 16
SINGLE-WIDTH SHAKE..... Page 28

BELLAFORTÉ

The inspired engineering of Bellaforté makes uncommon beauty considerably more attainable. Its innovative design requires less overlap (reducing waste and cost), making it a stylish upgrade that won't bust the budget.

CREATING EXPOSURE

Installing the tiles straight or staggered is a personal choice. Although budget and architectural style will enter into the equation, personal preference is typically the final determining factor. With DaVinci Multi-Width and Single-Width tiles, you have the greatest ability to vary tile placement. Both Bellaforté Slate and Shake tiles must be installed at a 12" exposure.

Multi-Width and Single-Width Slate can be installed at 6", 7", 7½" and 8" exposure.

Multi-Width, Single-Width, and Select Shake can be installed at 9" and 10" exposure.

DAVINCI SLATE

Historically, attaining the luxurious look of natural slate hasn't been easy. The cost, the weight and the required army of skilled tradesmen made the installation process complicated and costly. **Thanks to the genius of DaVinci, the look of slate is more viable than ever.**

MULTI-WIDTH

Multi-width tiles provide the greatest degree of authenticity and flexibility.

SINGLE-WIDTH

Single-width tiles reduce material and speed up installation time without compromising style.

BELLAFORTÉ

The look of slate at a fraction of the cost and weight.

THE VILLA MADONNA NEWBURGH, NEW YORK

The 140-year-old Villa Madonna at Mount St. Mary College needed its roof to reflect its historical significance. The contractor chose DaVinci Slate to keep up with the building's beautiful Victorian style and provide top-rate durability.

MULTI-WIDTH SLATE

MULTI-WIDTH SLATE
EUROPEAN

A perfect match.

The picture of elegance. DaVinci's Multi-Width Slate delivers the highest levels of beauty without the typical challenges of a natural slate roof. Our tiles are engineered to be lighter, to resist impact and to maintain their color longer. It's hard to beat Mother Nature, but DaVinci has done it.

**MOHAWK AVENUE SCHOOL
SPARTA, NEW JERSEY**

Mohawk Avenue School went with DaVinci Slate roofing tiles in an authentic European color blend for fire, wind and impact resistance. Their new roof is both beautiful and low-maintenance.

WE KEPT EVERYTHING YOU LOVE...

and made it better.

It's no wonder people are drawn to the timeless good looks of slate tile and cedar shake. The allure is unmistakable. A DaVinci composite roof lives up to the look of nature, but does so without the ongoing maintenance, repairs and replacement.

At DaVinci, we made a good thing better:

Resistant to fading, rotting, cracking and pests

Stands up to wind, hail and fire as well as or better than natural materials

Enjoy the peace of mind that comes with a 50-year warranty

Every tile reflects the artistry and the genius of DaVinci himself
